**mayonique**

**PRACTICAL MAGIC UNDER YOUR FEET**

**COTTAGE STONE**

**CHRISTMAS SPECIAL on grey pavers** until 9 December 2016  
Please contact our factory shop to enquire about these and other specials while stocks last

Mayonique® has earned an enviable reputation as a state-of-the-art paver. The reasons are many, including its elegance, beauty and versatility. In addition, being bevelled on both sides, Mayonique® allows for easy installation and maintenance: because chipped or damaged pavers can be turned over and used, site wastage is significantly reduced.

Its elegant charm, smooth finish and appealing colours have made the Cottage Stone® paver a favourite in various applications. The Cottage Stone® is a uniform paver. This unique paver features a non-bevelled edge on one face and the alternative face has a small bevelled edge, thereby providing two finish options.

**CLEAN LINES  
 SOPHISTICATED  
 MAINTENANCE-FREE**

The Coverland DRY RIDGE system reflects the standard in ridge and hip fixing accepted in Europe.

No more cracked or leaking ridge/hip lines caused by hardened mortar.

No roof and ceiling damage.

No costly and unsightly roof repairs which inevitably leads to more future repairs.

For more information, see the easy time-saving application of the Dry Ridge Rolls on youtube.

# GET THE PROVEN STRENGTH OF A GENUINE TRELLIDOR.

**TRELLIDOR**  
THE ULTIMATE CRIME BARRIER

To the untrained eye, all expandable security gates look the same. The problem is that it's only in a crisis that the differences between a genuine Trellidor security gate and a similar looking product become glaringly obvious. From patented Trellidor locking systems to state-of-the-art anti-corrosion powder coating processes, we put the best possible technology into our door and window security barriers. So although some of our products look similar to other barriers, they certainly don't work the same.

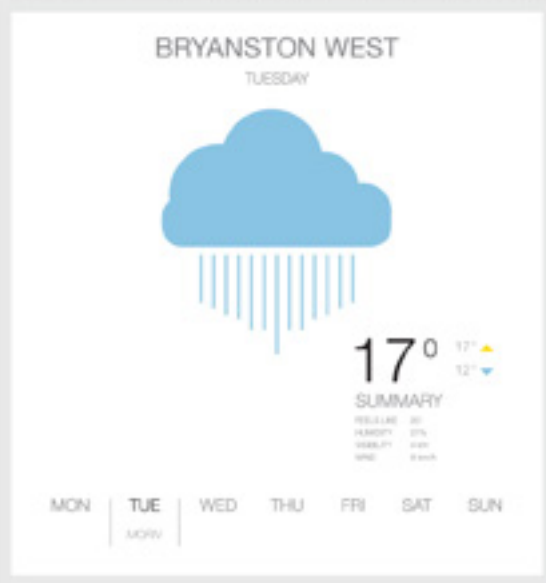

VISIT A TRELLIDOR SHOWROOM NEAR YOU AND SPEAK TO ONE OF OUR EXPERTS
